India's cyberspace —
the world's second
most targeted

CloudSEK, 2024

181 + 241

Avg. days to detect and
fully contain a breach

IBM, 2025

TechGuard Labs is a joint Israel–India cybersecurity center established in 2026 in Coimbatore, Tamil Nadu, founded by SNR Sons Trust, Ariel University, ERA IT Consulting & Audit Ltd, and Promitei Ltd. We bring together proven Israeli cybersecurity methodologies with deep local Indian expertise — structured around the full cyber lifecycle from risk assessment and governance through continuous monitoring, incident response, and recovery.

MAIN SERVICE LINES

ADVISORY & COMPLIANCE

Cyber readiness, governance, and regulatory alignment.

- Cyber readiness & maturity assessments
- GRC & Compliance Suite
- Regulatory gap analysis & compliance roadmaps
- Vendor / 3rd-party risk assessments
- IR playbooks & breach notification protocol

MANAGED SERVICES

Continuous security operations as an integrated extension of your team

- SOC/NOC-aligned monitoring & support
- 24/7 incident triage & escalation
- TechGuard vCISO services
- Security planning & governance oversight
- Managed Vulnerability & Patch Governance

ARCHITECTURE & SOLUTION TAILORING

Design, selection, and implementation of right-fit security architectures.

- Security design reviews (cloud, on-prem, hybrid)
- Best-in-class solution selection
- Identity architecture (MFA / SSO / Zero Trust)
- Security hardening baselines
- DevSecOps & Secure SDLC guidance

TRAINING & CERTIFICATION

Workforce capability built for resilience and reduced external dependency.

- Industry & regulation-specific programs
- Certification tracks (ISO 27001, NIST, vendor)
- SOC analyst, cloud security, IAM, secure coding
- Role-based awareness & phishing simulations
- Secure culture programs & security KPIs

TECHGUARD INNOVATION & TALENT INITIATIVE

In partnership with Ariel University, the Ariel Cyber Innovation Center, and SNR Academic Institutions — developing the next generation of cybersecurity professionals and advancing applied India–Israel research.

TLV

CJB

GLOBAL GRADUATE PROGRAMME

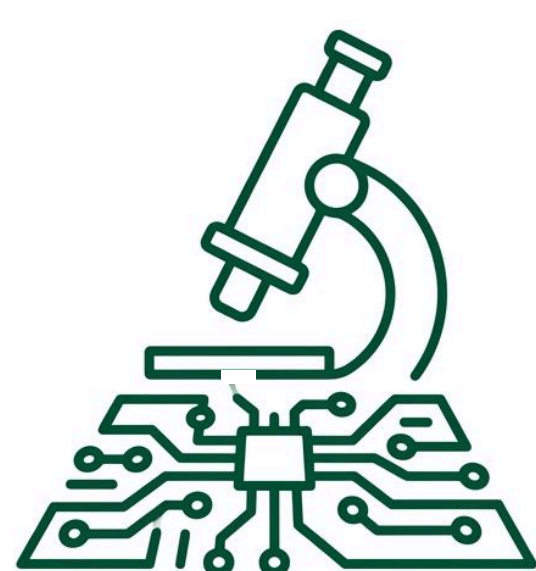

Scholarships covering tuition, accommodation & internship in Israel. Master's programme at Ariel University paired with TechGuard practical placement.

TRAINING & CERTIFICATION

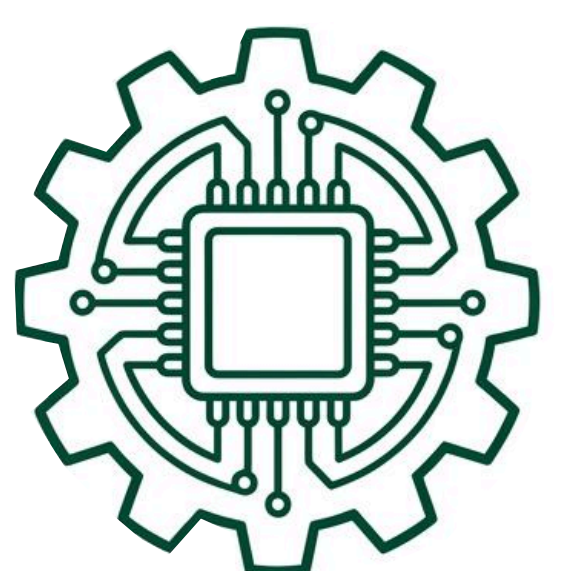

Practitioner tracks: threat detection, IR, vulnerability management & cyber resilience. Mapped to ISO 27001, NIST CSF, and regional compliance mandates.

JOINT APPLIED R&D

Collaborative research between SNR Academic Institutions & Ariel University. Guided by Joint Steering Committee, informed by real market data.

ISRAEL-INDIA GLOBAL INNOVATORS HACKATHON

Annual Israel–India hackathon co-led by Ariel University & SNR Institutions. Winners: project scaling, internships & fast-track career opportunities.
